

Paritosh Baroliya

Quality Engineer — Metrology — New Product Development
paritosh7046@gmail.com | +91-7046807319 | paritosh-baroliya

PROFESSIONAL SUMMARY

Results-driven Quality Engineer with hands-on experience in product quality assurance, metrology laboratory handling, calibration management, root cause analysis, and new product development in the bearing manufacturing industry. Skilled in QC tools, CAPA, 8D methodology, SPC, MSA, APQP, and PPAP. Strong ability to improve process quality, reduce defects, and support continuous improvement initiatives.

WORK EXPERIENCE

SKP Bearing Industries Ltd.

Quality Engineer & MR

Oct 2022 – Present

- Monitor and analyze product and process quality performance.
- Handle metrology laboratory activities including contour, roughness, roundness, and cylindricity measurement.
- Responsible for calibration of instruments and gauges.
- Lead root cause analysis using 7 QC tools, CAPA, and 8D methodology.
- Support new product development and validation activities.
- Prepare quality documentation, inspection reports, and process records.
- Participate in customer complaint analysis and corrective action implementation.
- Coordinate with production teams for process improvement and defect reduction.

Ram Engineer Works, Surendranagar

Trainee Engineer – Production & Quality

May 2021 – Sep 2022

- Assisted in production process monitoring and inspection activities.
- Supported quality checking and process control operations.
- Learned industrial quality systems and manufacturing standards.

CORE SKILLS

Quality Tools: 7 QC Tools, CAPA, 8D, Root Cause Analysis

Core Tools: SPC, MSA, APQP, PPAP, 4M Change Management

Metrology: Roughness Tester, Roundness Tester, Contour Tester, Cylindricity Tester

Documentation: Inspection Reports, Calibration Records, Quality Documentation

Manufacturing: Process Improvement, Defect Analysis, New Product Development

Soft Skills: Communication, Problem Solving, Team Coordination

TRAINING & CERTIFICATIONS

- SPC, MSA, APQP, PPAP, and PPC from Maruti Center for Excellence.
- Defect Detection, Root Cause Analysis, and Defect Prevention.
- MAHR Metrology Equipment.
